Measure Guide

Measure the width of the door opening on the inside face of the brickmould on each side: top, center & bottom. Record the shortest measurement.

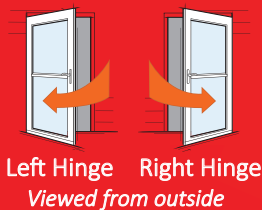

Measure the height from the top of the door sill to the under-side of the brickmould at the top.

The box sweep at the bottom of the storm door allows a $\frac{1}{2}$ " expansion. The door will be manufactured to allow a $\frac{1}{4}$ " adjustment up or down from the measurement provided.

Measured Opening	Required Size
31 $\frac{3}{4}$ " - 32 $\frac{1}{4}$ "	32"
32 $\frac{3}{4}$ " - 33 $\frac{1}{4}$ "	33"
33 $\frac{3}{4}$ " - 34 $\frac{1}{4}$ "	34"
35 $\frac{3}{4}$ " - 36 $\frac{1}{4}$ "	36"

Standard 80" door fits opening of 79 $\frac{3}{4}$ "-80 $\frac{1}{4}$ "
