

Colour Selections

Aluminum Colour Technology (exterior)

- Meet rigorous AAMA standards for architectural coatings
- Wet painted and baked to cross-link chemical structures
- Able to withstand UV radiation + humidity changes
- Standard PPG - Duracron (Acrynar & Duranar available)

Vinyl Colour Technology (interior)

- 2K (two-component) coating system - resin + topcoat
- Acrylic topcoat finishing layer for maximum flexibility + colour retention
- 25-35 Gloss (semi-matte)
- Textured euro-finish for better durability and heat displacement
