

A SERIES 400

ALUMINUM

A Higher Standard in Window Systems

A-Series aluminum windows welcome architects and builders to be creative in mixing interior & exterior colours, oversized configurations and modern styling.

STRUCTURAL

- Meets the NAFS CW Class - making the system suitable for commercial, mid-rise and residential applications
- Windows are constructed with aluminum corner keys and crimping technology
- Oversized 4 1/2 inch frame depth for higher performance

THERMAL

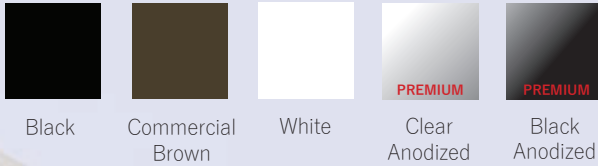

- Sealed with continuous, flexible weatherstripping allowing for full perimeter coverage
- Available in dual or triple glazing to meet local Energy Star requirements
- Proprietary performance core - largest thermal break available for an all-aluminum window

ALTITUDE⁺

 **EVERLAST**
GROUP OF COMPANIES

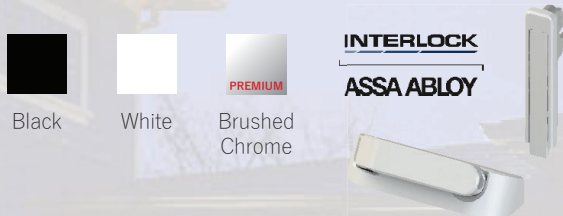

Unlimited Colours

- Custom colours + colour matching available
- Same colour in + out or split-finish

Multi-Point Hardware

- Contemporary aesthetic + optimized security

Insulated Glass

- Energy savings + solar control
- Wide variety of glass coatings available in both dual and triple-glazing to perfectly fit your application

Performance Testing

AAMA/WDMA/CSA 101/I.S.2/A440-17 (NAFS 17) + CSA440S1-19

- STRUCTURAL/WATER
Direct-Set Picture: Class CW - PG 65
Casement: Class CW - PG 80, 720Pa water
Awning: Class CW - PG 70, 720Pa water
- THERMAL
U-Factor Range ($W/m^2 * K$): 0.97 - 1.7
Solar Heat Gain (SHGC): 0.21 - 0.59
Energy Rating (ER): 26 - 46
